The FICA Tip Credit You're Missing Out On

Most restaurant and bar owners don't realize they're eligible for this substantial tax credit. Here's what you need to know:

What Is It

A dollar-for-dollar tax credit for employers who pay FICA taxes on employee tips. This is NOT a deduction—it's a direct reduction of your tax bill.

Who Qualifies

Restaurants, bars, hotels, and any hospitality business with tipped employees. If your staff receives tips, you're likely eligible.

How Much

Up to 7.65% of qualified tip income. For a restaurant with 20 tipped employees, this can mean \$20,000+ per year in credits.

Is Your Business Eligible?

Many hospitality businesses qualify for the FICA Tip Credit but don't realize it. See if your business type is eligible:

Full-Service Restaurants

Establishments where servers take orders and deliver food to customers at tables, including fine dining, casual dining, and family restaurants.

Examples:
Steakhouses, Italian restaurants, diners, etc.

Bars & Nightclubs

Establishments primarily serving alcoholic beverages where bartenders and servers receive tips from customers.

Examples:
Sports bars, cocktail lounges, pubs, nightclubs

Hotels & Resorts

Hospitality businesses where bellhops, room service staff, concierge, and other employees receive tips.

Examples:
Luxury hotels, boutique hotels, resorts, motels

Catering Companies

Businesses that provide food service at remote sites where staff receives tips from clients or guests.

Examples:
Wedding caterers, corporate event caterers, private chefs

Coffee Shops & Cafes

Establishments serving beverages and light meals where baristas and counter staff receive tips.

Examples:
Coffee houses, bakery cafes, breakfast spots

Other Qualifying Businesses

Various service establishments where employees customarily receive tips from customers.

Examples:
Cruise ships, casino restaurants, food delivery services, valet services

Key Eligibility Requirements:

- ✓ Your business must have employees who receive tips from customers
- ✓ You must pay FICA taxes (Social Security and Medicare) on those reported tips
- ✓ Your employees must report their tip income to you as the employer
- ✓ The business must have filed the appropriate tax forms (Forms 941, 8027, etc.)
